

Email Attachments for Magento 2

Note: These instructions apply to installing an extension downloaded from Magento Marketplace only. If you downloaded the extension from the Fooman website, follow [these installation instructions](#) instead.

1. Download the extension through the [Magento Marketplace](#). Once complete, the extension will show in your account under My Purchases.

The screenshot shows the 'My Purchases' page on the Magento Marketplace. The page has a header with the 'Magento Marketplace' logo, navigation links for 'EXTENSIONS' and 'THEMES', a search icon, a shopping cart icon, and a 'FOOMAN' dropdown menu. Below the header, there's a 'Back to My Account' link and the 'My Purchases' title. A tabbed interface shows 'Extensions' as the active tab, with 'Themes' and 'Packages' as options. Below the tabs, there are filters for 'All Platforms' and 'All Editions'. Two extension cards are displayed: 'Same Order Invoice Number' (blue) and 'Order Manager' (green). Both cards show the Fooman logo, the extension name, and the version 'M2'. Below each card, there's a 'Choose version' dropdown menu with '2.0.3' and '2.0.2' respectively, and a 'Download' button.

2. Create access keys in your Marketplace account (if you haven't done so already):

Installation

Essential Info

If you are installing extensions all the time and you have an existing process for installing extensions this is the info you will need:

```
composer require fooman/emailattachments-m2:^3.0
bin/magento module:enable --clear-static-content Fooman_EmailAttachments
```

Option 1: The easy option (using the ExtDN Installer)

The Installer will take you through a set of automated tests and check for common issues before proceeding with the installation. From a command line in your Magento root folder run (all one line):

```
sh -ic "$(curl -sS https://raw.githubusercontent.com/extdn/installer-m2/master/bin/one liner.sh)" -- install fooman/emailattachments-m2:^3.0
```

Option 2: The manual option

From a command line in your Magento root folder run

```
composer require fooman/emailattachments-m2:^3.0
bin/magento module:enable --clear-static-content Fooman_EmailAttachments
bin/magento setup:upgrade
```

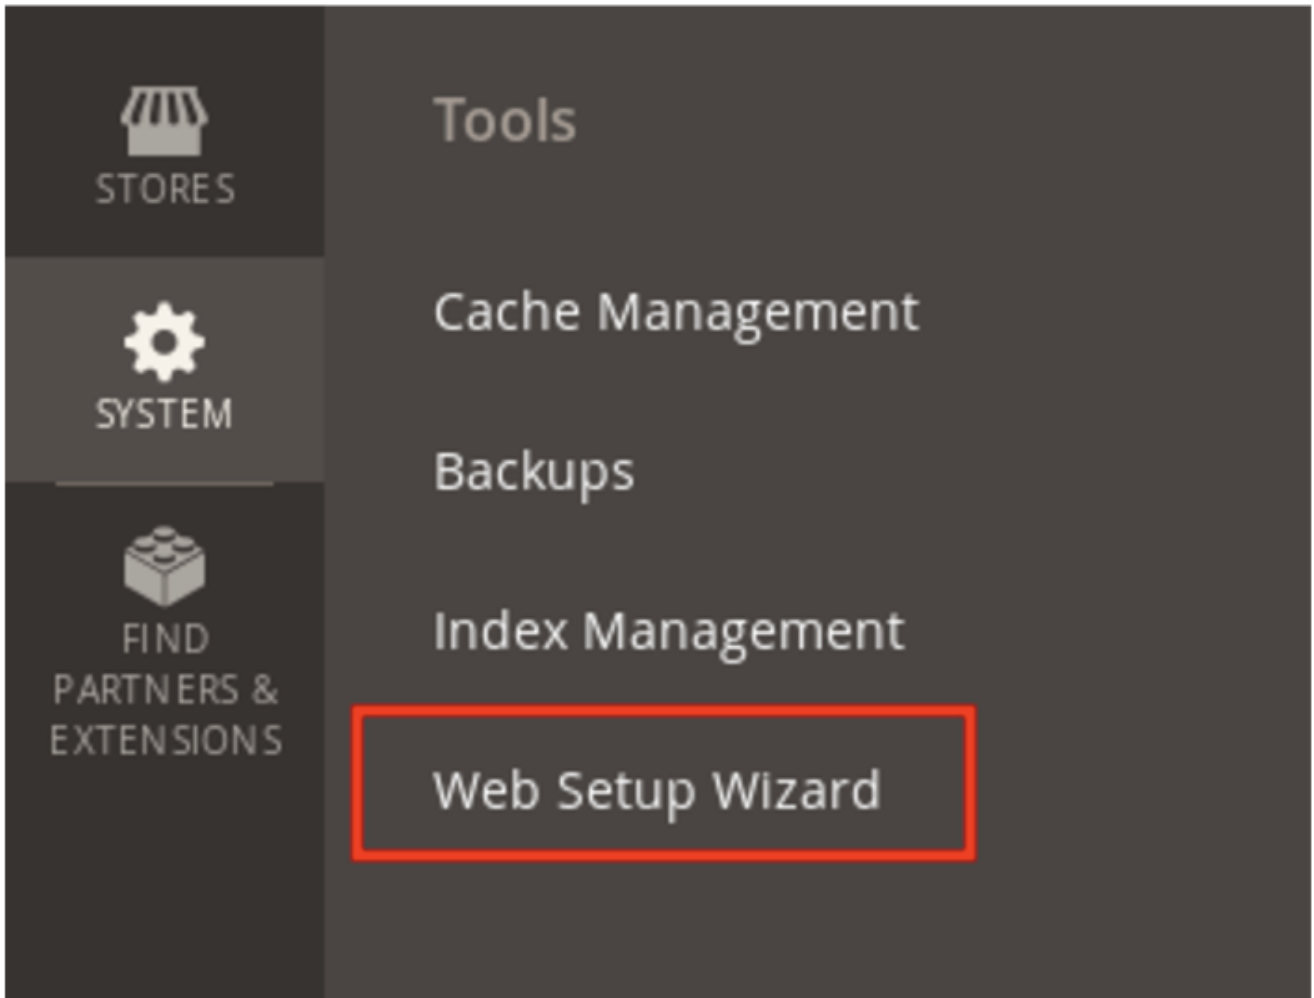

If you are using Production Mode please also run

```
bin/magento setup:static-content:deploy
```

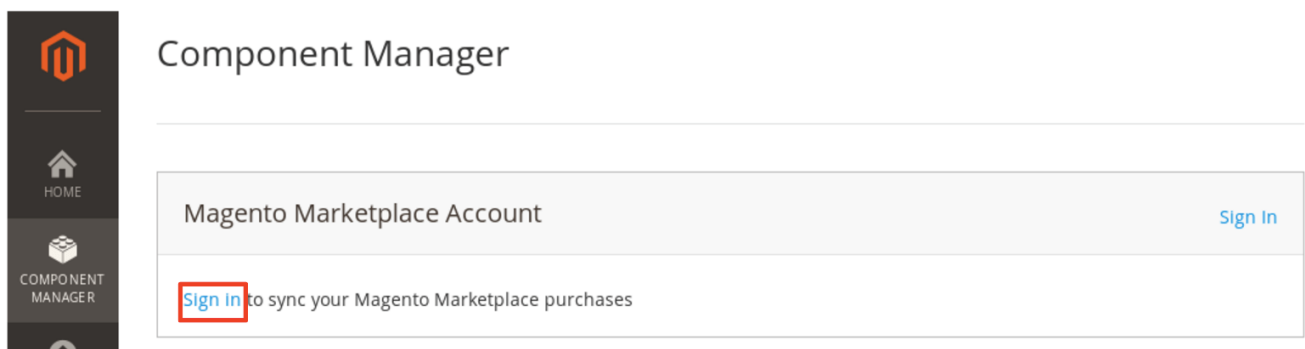

bin/magento setup:di:compile

Option 3: Web Setup Wizard (only available on Magento 2.0 - 2.3)

1. In your Magento store, head to **System > Web Setup Wizard**

2. Choose the Component Manager and then hit “Sign In” (if not done prior) using the Access Keys created for your Marketplace account.

3. Use the Sync button if the last Sync was performed before the purchase of the extension. Next click “Install”.
