Attach Terms and Conditions	No	▼ ?

Standard Magento Settings

The first six settings are standard Magento settings - configure these as per normal.

Be sure to enable automatic sales emails.

Attach Invoice/Shipment/Credit Memo as Pdf (v1.0.0+)

When set to “Yes”, your invoice/shipment/credit memo PDF document will be automatically attached to the order/invoice/shipment/credit memo email.

Attach Order as Pdf (v1.0.0+)

You can also choose to automatically attach an order document to the order email. This requires the free Foومان Print Order PDF extension - you'll need to install this first in order for this feature to be enabled: [Link to free download.](#)

Attach Terms and Conditions (v1.0.0+)

When set to “Yes”, your Terms and Conditions html and text files (from **Sales > Terms and Conditions**) will be automatically attached to the email.

How to hook into the email sending process with events

If you write your own extensions, you can hook into the email sending process with the following events:

- fooman_emailattachments_before_send_order
- fooman_emailattachments_before_send_order_comment
- fooman_emailattachments_before_send_invoice
- fooman_emailattachments_before_send_invoice_comment
- fooman_emailattachments_before_send_shipment
- fooman_emailattachments_before_send_shipment_comment
- fooman_emailattachments_before_send_creditmemo
- fooman_emailattachments_before_send_creditmemo_comment

The dispatch call looks like this:

```
$this->eventManager->dispatch(  
  
    'fooman_emailattachments_before_send_order',  
  
    [  
  
        'attachment_container' => $this->attachmentContainer,  
  
        'order'                => $order  
    ]  
);
```

Reporting Any Issues/Bugs

We are proud of our quality extension code - it's been widely tested and we stand by it 100%. If something does happen and you think you might be experiencing an issue or bug, please contact us via support@fooman.co.nz and we will help you out.
