

Print Order Pdf for Magento 2

Note: These instructions apply to installing an extension downloaded from the Fooman website only. If you downloaded the extension from the Magento Marketplace, follow [these installation instructions](#) instead.

Essential Info

If you are installing extensions all the time and you have an existing process for installing extensions this is the info you will need:

```
composer require fooman/printorderpdf-m2:^3.0
bin/magento module:enable --clear-static-content Fooman_PrintOrderPdf
```

Option 1: The easy option (using the ExtDN Installer)

The Installer will take you through a set of automated tests and check for common issues before proceeding with the installation. From a command line in your Magento root folder run (all one line):

```
sh -ic "$(curl -sS https://raw.githubusercontent.com/extdn/installer-m2/master/bin/oneliner.sh)" -- install fooman/printorderpdf-m2:^3.0
```

Option 2: The manual option (using packagist.org)

From a command line in your Magento root folder run

```
composer require fooman/printorderpdf-m2:^3.0
bin/magento module:enable --clear-static-content Fooman_PrintOrderPdf
bin/magento setup:upgrade
```

If you are using Production Mode please also run

```
bin/magento setup:static-content:deploy
bin/magento setup:di:compile
```

Option 3: The manual option (Self-Hosted Repository)

1. Unzip the zip file you downloaded from our store and place the individual zip files into the

following folder (please create this folder if it's not already present):

MAGENTO_ROOT/vendor/fooman/packages

▼ vendor	28 items	Folder	Mar 2
▶ bin	10 items	Folder	Dec 6 2015
▶ braintree	1 item	Folder	Dec 6 2015
▶ composer	10 items	Folder	Dec 6 2015
▶ doctrine	1 item	Folder	Dec 6 2015
▶ fabpot	2 items	Folder	Dec 6 2015
▼ fooman	1 item	Folder	21:20
▼ packages	3 items	Folder	21:20
Fooman_PrintOrderPDF.zip	62.9 kB	Archive	Feb 22

2. From a command line in your Magento root folder run

```
composer config repositories.foomanartifacts artifact $(pwd)/vendor/fooman/packages
composer require fooman/printorderpdf-m2:^3.0
bin/magento module:enable --clear-static-content Fooman_PrintOrderPdf
bin/magento setup:upgrade
```

If you are using Production Mode please also run

```
bin/magento setup:static-content:deploy
bin/magento setup:di:compile
```

[NEXT STEP: PRINT YOUR ORDER PDF'S](#)

Uninstalling Print Order Pdf (M2)

From a command line in the Magento root folder run:

```
bin/magento module:disable Fooman_PrintOrderPdf
bin/magento setup:upgrade
composer remove --update-with-dependencies fooman/printorderpdf-m2
```

If you have used the Manual Installation Method (Option 2), then please delete the following files if they exist.

```
rm vendor/fooman/packages/Fooman_PrintOrderPdf*.zip
```

Where can I find support for Fooman Print Order Pdf (M2)?

Check out these resources to get the extension running:

- Check out the FAQ in this [Help Centre](#)
- Or report a suspected bug. Before reporting a bug, please make sure that you can replicate the issue on Magento's default theme (with no other extensions installed), to rule out any issues caused by extension/theme conflicts). We may contact you if we have an immediate fix or a workaround, but we can't always respond individually to every report that comes in.

This usually solves 95% of issues we receive. If an error still persists after following the troubleshooting advice above:

- Purchase a [support package](#)
- Contact your regular Magento developer for assistance
- Alternatively, uninstall the extension

Reporting any issues/bugs

We are proud of our quality extension code - it's been widely tested and we stand by it 100%.

If something does happen and you think you might be experiencing an issue or bug, in the first instance please run some checks to confirm if the issue is present when using Magento's default theme. If the issue persists, please contact us and we will help you out.

Reporting Any Issues/Bugs

We are proud of our quality extension code - it's been widely tested and we stand by it 100%. If something does happen and you think you might be experiencing an issue or bug, please contact us via support@fooman.co.nz and we will help you out.
