2. Create access keys in your Marketplace account (only needs to be done once for each Magento store):

Installation

Essential Info

If you are installing extensions all the time and you have an existing process for installing extensions this is the info you will need:

```
composer require fooman/printorderpdf-m2 :^3.0
bin/magento module:enable --clear-static-content Fooman_PrintOrderPdf
```

Option 1: The easy option (using the ExtDN Installer)

The Installer will take you through a set of automated tests and check for common issues before proceeding with the installation. From a command line in your Magento root folder run (all one line):

```
sh -ic "$(curl -sS https://raw.githubusercontent.com/extdn/installer-m2/master/bin/oneliner.sh)" -- install fooman/printorderpdf-m2:^3.0
```

Option 2: The manual option

From a command line in your Magento root folder run

```
composer require fooman/printorderpdf-m2:^3.0
bin/magento module:enable --clear-static-content Fooman_PrintOrderPdf
bin/magento setup:upgrade
```

If you are using Production Mode please also run

```
bin/magento setup:static-content:deploy
bin/magento setup:di:compile
```

Option 3: Web Setup Wizard (only available on Magento 2.0 - 2.3)

1. In your Magento store, head to System > Web Setup Wizard

2. Choose the Component Manager and then hit “Sign In” (if not done prior) using the Access Keys created for your Marketplace account.

3. Use the Sync button if the last Sync was performed before the purchase of the extension. Next click “Install”.
